Porous materials including microporous, mesoporous and macroporous materials have attracted much attention because they contribute to the solution of the issues of energy, resources and environment, establishing a sustainable society.

The Japan Zeolite Association (JZA) has organized a series of symposia as CMPC (Chemistry of Microporous Crystal) in 1990 (Tokyo), ZMPC1993 (Nagoya), ZMPC1997 (Tokyo), ZMPC2000 (Sendai), ZMPC2006 (Yonago), ZMPC2009 (Tokyo) and ZMPC2012 (Hiroshima), ZMPC2015 (Sapporo), ZMPC2018 (Yokohama). Next ZMPC2024 will take place during July 21-25, 2024 in Osaka.

The International Symposium on Porous Materials (ISPM) is intended to provide a forum for researchers in the world, especially students, to discuss recent developments in research and applications of porous materials. We have successfully organized the ISPM2019, ISPM2020, ISPM2021 and ISPM2022.

In 2024, we are organizing Pre-symposium of ZMPC 2024 in collaboration with ISPM2024 in Kamakura just before main ZMPC conference at Osaka. The symposium will consist of plenary and invited lectures and aim at promoting the fundamental and applied studies on porous materials. We hope that this symposium will be the start of strengthening the relationship among the participants and building a next generation network.
